Be strong and courageous.
Do not be frightened, and do
not be dismayed, for the Lord
your God is with you wherever
you go.

Step 1 | Measure the inside drawer width and depth.

- Record the measurements:

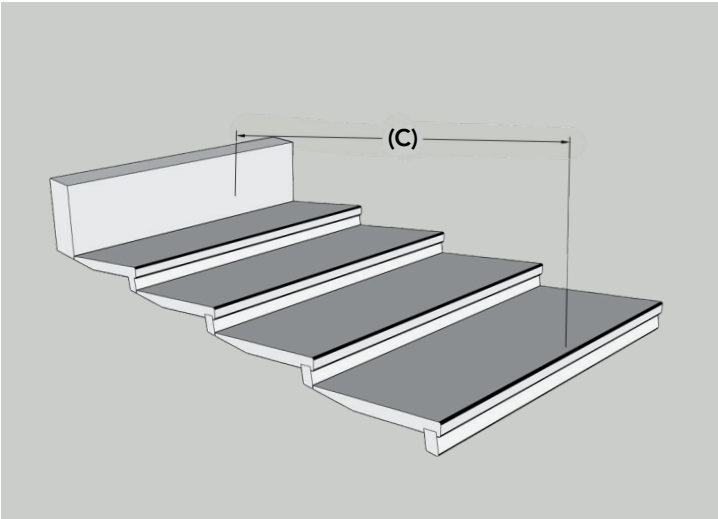

Inside Drawer Width (A)

Inside Drawer Depth (B)

Step 2 | Measure the depth of all the slats.

- Line up the slats against a flat surface. This ensures you'll get an accurate measurement.
- Record the measurement:

Total Slat Depth (C)

Step 3 | Calculate how much to trim off the front of each slat.

Step 4 | Trim the width of each slat.

- Trim each slat to the same width as the inside drawer width (A).

Step 5 | Trim the front edge of each slat.

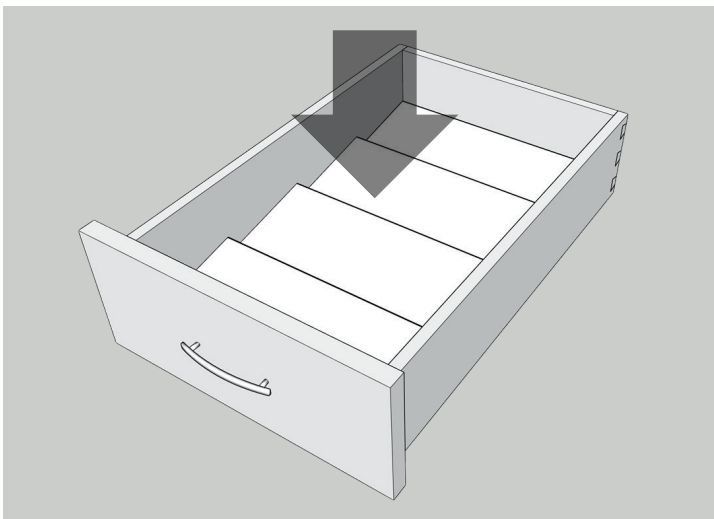

Pro Tip

If the total trim amount (D) is 1/8" or less, it may be easier to trim just one slat instead of all four slats.

- Before trimming each slat, flip it face down.
- Cut the trim amount per slat (E) off the front edge of each slat.

Step 6 | Insert the trimmed slats into the drawer.

Pantry organizer

➤ (2) Fixed-height shelves

Top and bottom shelves are fixed height. Side rails keep tall and stacked items from falling over.

➤ (3) Adjustable shelves

Adapt your pantry space to your changing storage needs.

➤ (2) sets of heavy-duty Blum MOVENTO slides

The organizer slides out allowing convenient access to your pantry items.

NEW + IMPROVED

Open-top design

- This new design allows the organizer to be installed into a wider range of pantry heights.
